# THE PHOTOGRAPHER'S PERSPECTIVE

Amanda has travelled the world totaling to 86 countries and all 7 continents and has lived in 13 countries. She has been named "Top 100 Women in Business" by Chanel, awarded by Facebook as Top 3% photographer in the world, labeled by Google as an Expert Photographer, and awarded by the Canadian Government as the Top Photographer in Vancouver Canada in 2023- 25. In 2024 she was awarded by the Canadian Choice Awards as Best Wedding Photographer in Canada. Shown in galleries internationally, been on multiple TV shows/ publications and her work as an artist and photographer has been awarded and nominated. Traveling the world has taught Amanda a lot of patience, fresh perspective and new ways of life from the people she has met abroad.

It is said a "photographer should shoot what they feel, not what they get" and her photography embodies the eye of someone who sees past the big picture delving deep to seek out that special feeling, thought, emotion or connection with the subject for the viewer. The little things, the little details are what matter. Her photos are inspired by natural beauty, light and detail that culminates luxurious editorial imagery.

Ten Acres Photography Gallery in Melbourne, Australia exclusively represents and exhibits some of her photography. As well her photos have been awarded by Picfair and have been nominated for awards in categories of Street and Black and White for Lensculture.
